This is my town! We're here in the park, next to the church. Children play football in the park. Opposite the park there's a library and next to the library there is a museum. The supermarket is behind the museum. The museum is between the library and the school. There's a big sports centre next to the school, too. You can play tennis and volleyball here and there's a swimming pool in the sports centre. Opposite the school, next to the church, there is a post office. And next to the post office, there are two small shops. Behind the sports centre there's a hotel. The station is opposite the hotel. People take a train to the next town from here. The bus stop is in front of the shops.
